The Harriman system is "dead heading" Short Line cars over the Santa Fe Pacific for the new Salt Lake and Los Angeles road. It is the usual custom to send new rolling stock attached to freight trains, but in the present instance no expense is spared to get the new passenger coaches to their destination as soon as possible.

A report from the Navajo reservation says that Hostien Bo et-tin Begay, a noted Navajo, was recently killed by the Indians of his tribe. Hostien, during his life, caused considerable trouble between the settlers and Indians, he being one of the Indians who took part in the fight between the Indians and deputy sheriffs in November, 1899.

Almost daily new finds of copper ore are being made in the region north of the Colorado river, bordering on the state of Utah. Some of the new finds are so far north as Kane county, while the greater number are in Mohave county. A railroad into that country would cause a stampede among investors to these copper fields. The ore is phenomenally rich and the extent of the fields unlimited.—Mohave Miner.

Samuel W. Ball died at his ranch near Challenger on April 21. Mr. Ball was a pioneer of Arizona, coming here first in 1855 from California. He came to Williams mountains in 1874, and for a score of years has remained on his ranch near Challenger. He was a quiet, industrious citizen, always ready to extend a helping hand to an unfortunate fellow citizen. He was a native of Virginia and was about 77 years of age. His funeral occurred at Williams on Tuesday.

There will be a special missionary service in the Presbyterian church Sunday evening, April 28, beginning at 8 o'clock. PERPLEXING PLUMBING PROBLEMS...

will find here a prompt and capable solution, even though they may be as unimportant as the mending of a bursted pipe or a leaky faucet; and we can solve your problems in an equally satisfactory manner if they are as important as those involved in the plumbing and heating of a new court house, or a fine residence, either of which we would be pleased to furnish estimates on.

No one hereabouts can offer you equal facilities, as skilful a working force, nor so wide a knowledge of all that is latest, best and most economical in sanitary plumbing methods and materials.
